Education

Maharaja Surajmal Institute Of Technology

BTech: Computer Science Engineering

CGPA:9.74

2020 - 2024

New Delhi, India

Technical Skills

Languages: C/C++, HTML/CSS, SQL, JavaScript

Frameworks:: ReactJs

Tools: Git/GitHub, VS code, Postman, Codesandbox

Databases: Google FireBase, MongoDB

Experience

Bessalani

May 2022 – Present

Full Stack Developer Intern

- Delivered a fullstack service to build web application which aims to provide an education platform for the employees of various organization to learn new skills.
- Build a system to mark attendance, schedule classes using from admin dashboard using react-big-calender.
- Designed the backend operations using **Nodejs** and **MongoDB**.
- Modeled frontend to visualize growth of employees, completion of course and batch using **React**, **TailwindCss** and **syncfusion**
- Contributed to Bessalani website using **TailwindCss** to create a responsive design.

Projects

Bessalani-LMS |

React, MongoDB, Express

- Bessalani-LMS is web based mern application which aims to provide an educational platform to educate employees to learn new skills.
- Modeled the frontend with **React** and used packages like **syncfusion**, **react-big-calender** and **pdfjs-dist** create clean UI for learner and admin panel.
- Constructed an API service in **Nodejs** to communicate details between admin and Learner page.
- Used **MongoDB** database to enhance efficiency by **60%** on server side

Cryptoverse |

React, RapidApi

- Cryptoverse is a web based project which aims to provide the realtime global stats and news of multiple cryptocurrency.
- Worked with **Coinranking** and **Bing News Search** to fetch realtime information regarding cryptocurrency.
- Created a clean UI and responsive using **TailwindCss**.
- Implemented a search bar and line graph to search and visualize the growth of crypto over the years.

ShareMe |
